

VERMONT WORKING LANDS ENTERPRISE INITIATIVE

Lynd Farm

South Walden, VT

The growing Vermont swine sector needs Vermont-born pigs. Lynd Farm aims to consistently produce 40-60 weaned pigs per month from 30 sows. Matching funds will help them with streamline feeding, breeding work, and manure cleaning by adding a concrete feeding/breeding slab, pole shed housing, feed storage, a skid loader, and a water heater to our innovative wood/radiant heated facility built in 2014.

Total Working Lands Grant—\$16,250 for developing their sow farrowing business.
